The Gate to Europe & Asia

THE PORT

- Strategic location with modern infrastructure for combined transport routes, offering safe & fast transit through the Adriatic corridor, as well as to Egnatia & Ionian Road Axes.
- One of the biggest Ro/Pax ports in the Mediterranean
- Continuous growth in Cruise calls
- Listed as "Port of International Importance" - Category A of EU Outports

STATE OF THE ART FACILITIES RO/PAX PORT

STRATEGIC GOALS

Constant increase in Passenger & Cargo traffic

Establishment as an important link in the EurAsian Transport Chain

Develop services and infrastructures for Unaccompanied Cargo

Development of a Touristic Ports network in Epirus

Establishment as a Cruise destination

Construction of an alternative Fuel Terminal

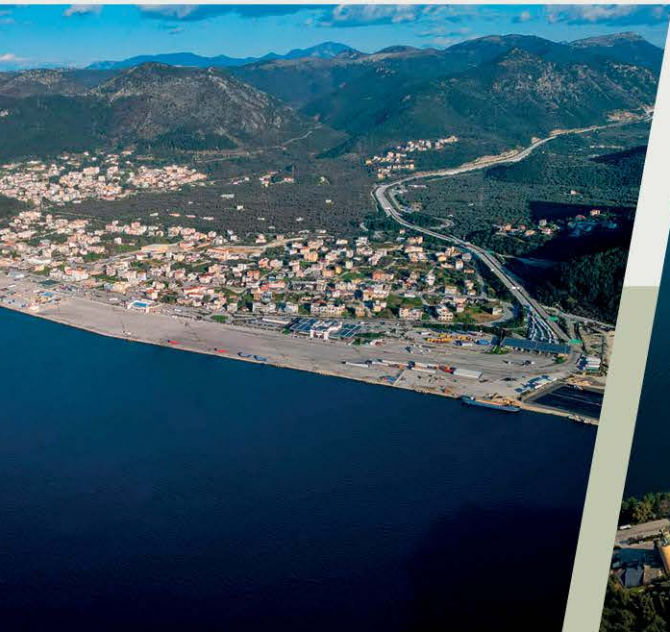

GREEN PORT

LEADING THE "GREEN TRANSITION" IN GREEK PORTS

The port of Igoumenitsa will be the 1st Greek Port to deploy OnShore Power Supply (OPS)

- The infrastructure currently includes a Photovoltaic Park of 1,5 MW
- Led lighting is applied across the facilities, resulting in saving energy up to 70%
- Provides HPDC Vehicle charging positions for public use
- Operates privately owned electric cars & shuttle bus
- Construction of an Alternative Fuels Terminal

All the above actions minimize Carbon Footprint by saving more than 60000 tons CO₂, being produced by the overall port operation, whereas maximizing benefits for the local society & environment.

Igoumenitsa Port Authority is committed to provide quality services to all port users, high-level Safety & Security Standards for its stakeholders, always aiming to continuous improvement, progress & sustainability

- Quality Management System according to ISO 9001:2015
- Occupational Health & Safety Management System according to ISO 45001:2018

- Integrated Environmental Management System consisting of:
 - ISO 14001:2015
 - PERS / Port Environmental Review System
 - EMAS (EL-000112)
 - Vessels' Residues Management
 - Monitoring of Environmental Footprint since 2022
